

2010/ ANNUAL REPORT

PETERBOROUGH LAKEFIELD COMMUNITY POLICE SERVICE

OUR VISION

To Be The Best Police Service, Providing The Highest Standard Of Professionalism In Partnership With Our Community

OUR MOTTO

Professional, Friendly and Helpful

Chair and Members of the Peterborough Lakefield Police Services Board:

I take this opportunity to report on the activities of the Peterborough Lakefield Community Police Service for the year 2010. The year reflected our strategic commitment to honour tradition, invest in people, harness technology and master change.

I would like to dedicate this year's annual report to the men and women, civilian and sworn, who have contributed so richly to the 160 year history of policing in Peterborough and the 135 year history of policing in Lakefield, perpetuated by the Peterborough Lakefield Community Police Service. To honour our anniversary, a commemorative coin was struck and presented to each member by Chair Thomas H.B. Symons on behalf of the Peterborough Lakefield Police Services Board. This gesture was universally received as an

acknowledgement of our proud past and a commitment to a positive future.

Our Service was called upon to assist in providing security and general police support to the 2010 Winter Olympics in British Columbia and the G-20 Summit in Toronto. These experiences allowed our members to participate on the world stage of policing and provided an exposure to international policing issues for members that will pay dividends in the future.

The year 2010 was again committed to organizational development and renewal as a result of the unprecedented attrition due to retirements. As such, significant investments were made in individual and collective training to ensure continuity in terms of operational, administrative, and business capacity. An unprecedented eight person years were invested in training to renew individual and collective skills, knowledge and competencies.

The 2010-2012 Business Plan titled "The Way Ahead" was presented to the councils of Peterborough and Smith-Ennismore-Lakefield, a myriad of key community partners and to the community members of Lakefield and Peterborough. As indicated in the progress report included in this Annual Report, the objectives and goals set for 2010 were substantially completed.

The Business Plan sets out the strategy to right size our Service to ensure compliance with the Adequacy and Effectiveness Standards set out in the Police Services Act. It addresses the need for additional resources to compensate for the erosion in operational capacity that is brought about by these Standards, the complexities of the Canadian Criminal Justice System, the ever-expanding mission, and the needs and priorities of our communities.

Preliminary work has been completed for the P-25 Radio Replacement Project with respect to securing the services of a project manager and the financial commitment to resource the project. Every effort has been made to sustain the existing radio until the 2012 implementation of the new technology. Repairs will be required on an ongoing basis to ensure officer safety and public safety risks are mitigated in the interim.

The Peterborough Drug Strategy Task Force was recognized in June by the Ontario Association of Chiefs of Police as recipient of the 2010 Community Policing Award. This award recognizes the "Four Pillar" model and the myriad of community partners dedicated to addressing the complexities of drug abuse through "Prevention, Treatment, Harm Reduction and Enforcement."

Constable Daryl Whitten was recognized in the fall of 2010 by the The Honourable David Onley, Lieutenant Governor of the Province of Ontario, as a recipient of the Ontario Medal of Police Bravery for his heroic role in the rescue of a man from the Otonabee River in November of 2009. Constable Whitten is the fifth such member of our Service to be so honoured.

I would like to thank each member of the Service for their continued commitment to duty and the "Professional, Friendly, and Helpful" service they provide to our communities.

Sincerely,

A handwritten signature in black ink, appearing to read "M C Rodd".

Murray C. Rodd

Problem-Oriented Policing

Solving crime, maintaining public order, and crime prevention is a shared responsibility between the police and the community. Since the 1970's, the Service's Community Patrol Unit has utilized a team-policing concept, allowing officers to identify and resolve issues that may be unique to a specific area of the City and the Lakefield ward of Smith-Ennismore-Lakefield. Teams annually set goals and objectives, plan team meetings in the community, and design strategies to achieve their goals and objectives.

In 2010, **Team One**, consisting of Community Patrol officers and Foot/Bike Patrol officers, partnered with the Traffic Unit to conduct education and enforcement details relating to the use of bicycles and skateboards in the downtown core. At the start of the year, Team One members also identified several high crime areas within their geographical zone, initiating a team problem-solving approach that had a significant impact in reducing the number of calls for service. Officers made several arrests and recovered illegal drugs and stolen motor vehicles. Throughout the year, as a result of a partnership between the Police Service and the Downtown Business Improvement Area (DBIA) Association, several officers from Team One spoke on a local radio show about safety issues affecting the downtown core, and a Team One member wrote a regular column in the DBIA monthly newsletter. A Team One member sat on a "Safety In The Downtown Bars" Committee organized through the VP of the Trent Central Student Association. A safety survey was conducted and the committee focused on trying to make the downtown safer for students. Team One members also partnered with management and security at the City Transit terminal, conducting extra uniform patrols, plainclothes details, and training sessions for the terminal's security staff. Team One members facilitated the assistance of students from the Fleming College Environmental Assessment Course to complete a full crime prevention assessment at the terminal.

In 2010, **Team Two** members continued to focus on traffic enforcement details on Fairbairn Street, Cumberland Avenue, Towerhill Road and Water Street North. Team Two members also endeavoured to assist area residents in dealing with concerns about public order and crime issues being attributed to clientele frequenting a community drop-in centre, temporarily located in Area #2 near the downtown core. Team Two coordinators and members met with members of City Council, area residents and clientele of the drop-in centre to hear concerns from all sides and formulate a plan. Many of the concerns were social issues and not necessarily police matters. Area residents were encouraged to call police when necessary and Team Two members conducted walk-through patrols and frequent car patrols in the area. Team Two members also increased opportunities to engage with youth by regularly visiting at four Area #2 group homes, allowing officers to interact with youth residents, providing sound advice and encouragement. The 40th anniversary "Head of the Trent" event, held at Trent University and in the downtown core, was a huge success as a result of a cooperative effort by Team Two members, Trent University, the DBIA, the City and volunteers. Team Two officers educated the public well in advance regarding zero tolerance, arranged extra patrol officers and auxiliary officers, and arranged the placement of portable washrooms in the area during the event.

In 2010, **Team Three** members identified persistent noise complaints, traffic problems, and the increase in break and enter as problems to deal with. Team Three members liaised with residents in the Clancy Crescent subdivision, City Councillors and Fleming staff and students to promote a "Zero Tolerance" policy with respect to noise complaints. Officers working with Fleming College staff and students, supported by the police auxiliary,

conducted a door-to-door information campaign to educate the residents on the noise bylaw. To reduce break and enters, officers educated the public with a public service letter advising residents how they can protect their property. The auxiliary police "Home Guard" Program supported this effort. Team Three members worked with the Traffic Unit in conducting several traffic enforcement and education campaigns to reduce the number of motor vehicle collisions on Lansdowne Street. Team Three coordinators also attended a public meeting to alleviate concerns arising from disturbances around rooming houses, and continue to work with various City departments to discuss and share information on joint problems and possible solutions relating to rooming houses.

Team Four was tasked with several large community initiatives and events in 2010, including the Canadian Wakeboard Championships at Beavermead Park, the International Dragon Boat Festival and the summer-long Little Lake Music Festival. Working with the organizers, officers were assigned to co-ordinate police response to ensure these events were a safe success for all involved. Another significant event for Team Four was the "Cop Shop" event organized in co-operation with Lansdowne Place Mall. The school boards identified 26 deserving students who were given a gift card to purchase gifts at Lansdowne Place stores prior to Christmas. The young "shoppers" are assisted by uniform police officers volunteering their time to participate. Throughout the year, Team Four also concentrated on noise complaints and unresolved neighbour disputes, involving City Councillors, employing available enforcement avenues, and utilizing mediation tactics to resolve outstanding issues.

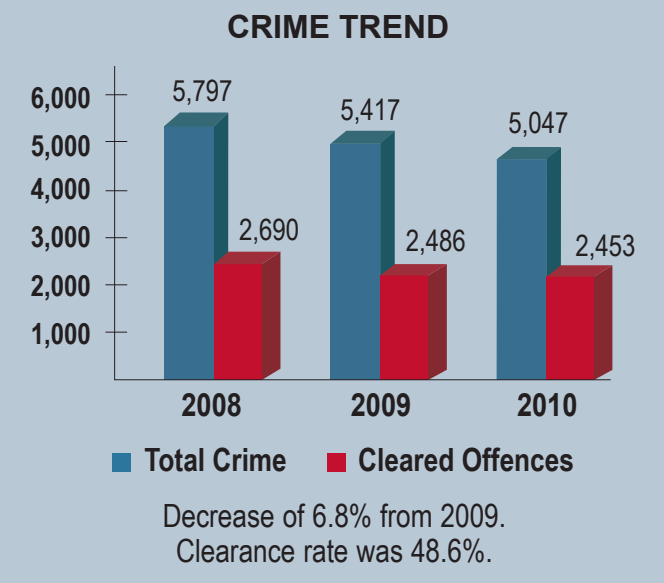

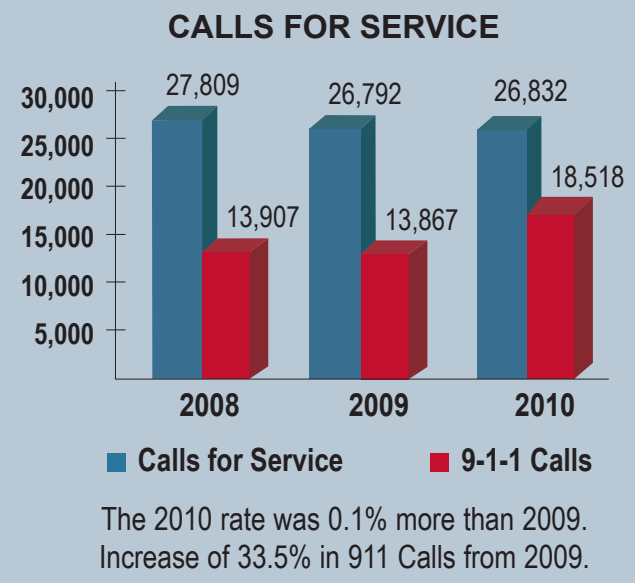

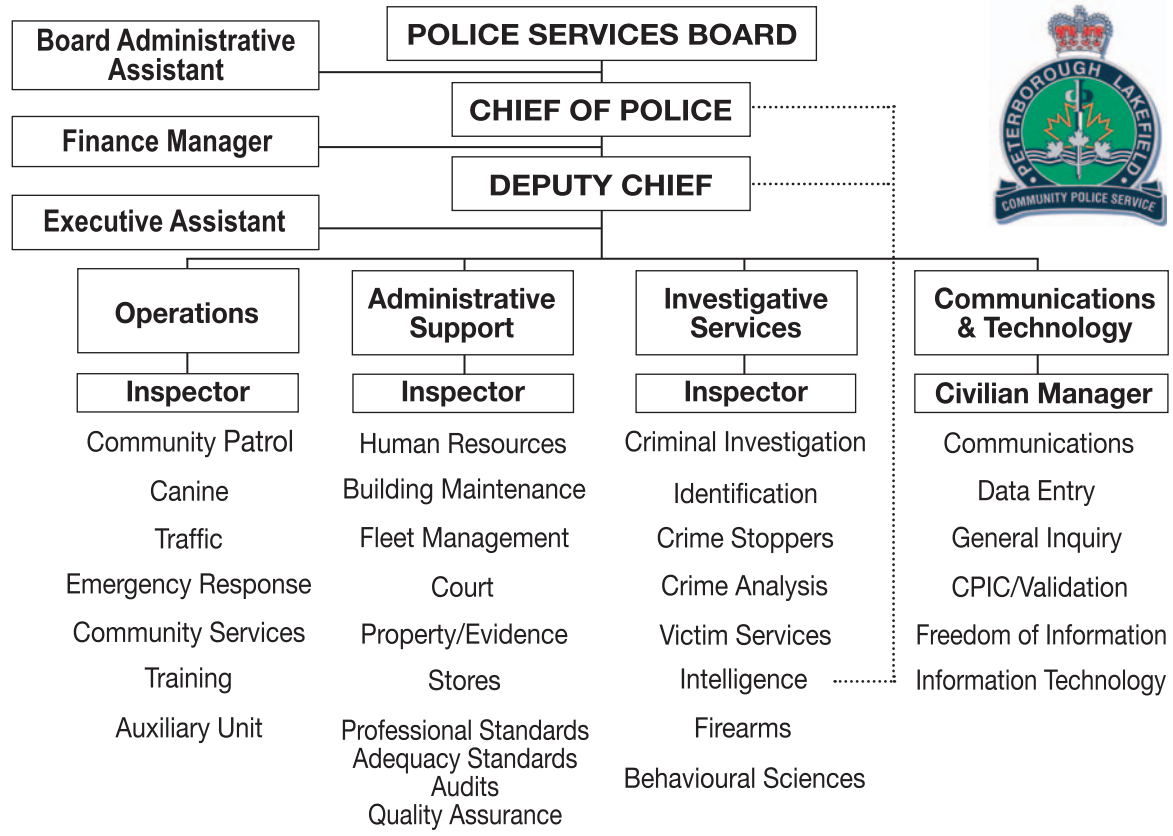

In 2010, **Team Five** concentrated primarily on traffic and parking concerns in Lakefield ward. Enforcement details were held in areas of complaint throughout the year and Team Five members monitored ongoing parking complaints in the area of the arena and marina. Team Five members also resolved complaints of snowmobiles on school property and continued to enforce "no-turn" restrictions at the bridge. Team Five members conducted routine bicycle patrol in Lakefield ward and attended youth nights at Lakefield schools.

In 2010, the **Traffic Team** continued to provide coordination and expertise in support of the Intoxilyzer Program, Drug Recognition Expertise and Training, Standard Field Sobriety Testing, the Ontario Traffic Committee, Collision Reconstruction, the Radar/Lidar Program, the RIDE Program, Project ERASE, the Seatbelt Enforcement Program, and the Auxiliary Policing Program. The Traffic Management Unit also worked in cooperation with the Ministry of Transportation (MTO) and Ministry of the Environment (MOE), liaised with the Collision Reporting Centre, coordinated parades and permit requests, and the Taxi By-Law Program. Traffic Team members worked co-operatively with area team members to

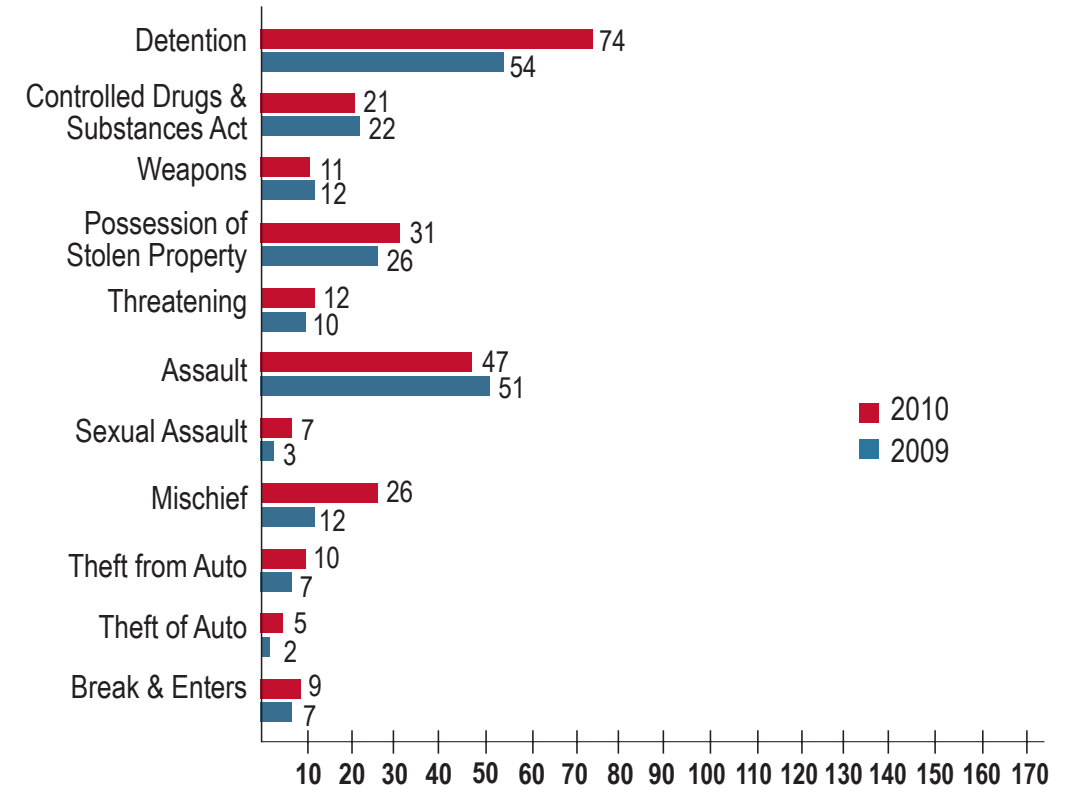

address traffic concerns, including bicycle/skateboard enforcement in the downtown area, speeding concerns on north end streets, improper turns and distracted driving through "Project Lansdowne", and noisy vehicles with MTO/MOE. The Traffic Team also participated in the promotion and use of the impaired driving simulator car at public events and area schools, and public service announcements promoting crossing guard and school bus safety. In 2010, the Team Traffic partnered with the City in purchasing a speed radar trailer.
